Education

B.E. in Information Technology
Prof. Ram Meghe Institute of Technology & Research, Amravati (2014 – 2017)

Diploma in Information Technology
Priyadarshini Polytechnic College, MSBTE (2011 – 2014)

Skills

Frontend:
React.js, Next.js, JavaScript, TypeScript, HTML, CSS, Tailwind CSS

Backend:
Node.js, Express.js, Spring Boot

Database:
MongoDB, SQL

Tools:
Git, GitHub, Bitbucket, VS Code, Postman, Jenkins

Concepts:
RESTful APIs, State Management (Redux), Responsive Design, Agile/Scrum, CI/CD, Performance Optimization

Certifications

MERN Stack Web Development

Publications

Presentation

Recognized for improving code quality through refactoring and performance optimization

Appreciation

Received appreciation during the ECOM team meeting for code quality improvement through refactoring efforts.

Experience

AlmaBetter — **01/2025 - Present | Bangalore, India**
Web Development Trainee

- Engineered 3+ MERN stack applications with JWT authentication and role-based access control, improving application security and user management
- Designed reusable and scalable UI components using React.js and Tailwind CSS, reducing development time by ~30%
- Built a mental health support web app with real-time interactions and Gemini AI integration for a personalized user experience

Medline Industries — **07/2021 - 07/2024 | Pune, India**
UI Developer

- Developed and maintained enterprise healthcare web applications using **React** and **Next.js**, improving UI scalability and application performance.
- Contributed to **Clinician Platform and Patient Management System**, developing responsive dashboards and workflow interfaces used by **15+ internal teams**.
- Designed **reusable and modular UI components using React Hooks**, following component-driven architecture to improve maintainability and development efficiency.
- Implemented **advanced search, filtering, sorting, and pagination** to efficiently handle large healthcare datasets and enhance user experience.
- Integrated **RESTful APIs** and optimized data handling, reducing application load time by **~25%**.
- Ensured **responsive UI and cross-browser compatibility** across multiple devices and screen sizes.
- Collaborated in **Agile development teams**, participated in code reviews, and mentored junior developers to improve overall team productivity.

BridgeLabz — **01/2021 - 06/2021 | Mumbai, India**
Fellowship Engineer

- Gained hands-on experience in Java (OOP), Angular, Shell Scripting, and logical programming by building applications such as Employee Wages and Mood Analyzer, along with backend APIs using Spring Boot.
- Developed and incorporated 8+ REST APIs across backend services, boosting performance by ~20% and improving data handling efficiency.

Peak Web Guide — **02/2019 - 03/2020 | Nagpur, India**
Frontend Developer

- Spearheaded the merging of 10+ REST APIs into streamlined backend systems, decreasing server load by 15% and accelerating data processing speeds by 40% through efficient code optimization.
- Managed 6+ WordPress websites and crafted 10+ responsive HTML email templates, ensuring 100% cross-browser and cross-client compatibility

Training Projects

Mental Health Tracker - (MERN Stack, Gemini AI) — **03/2026 - Present**
Mental Health Tracker

- Created a full-stack MERN application for mood tracking, journaling, and AI-based affirmations

AI Orchestrator - (React.js, Gemini AI, n8n) — **02/2026 - 03/2026**

- Orchestrated 5+ webhooks and APIs to streamline automation tasks and enable real-time workflow processing.

Quiz Application - (React, Redux, Node.js) — **01/2026 - 02/2026**

- **Implemented a Redux-based interactive quiz platform** with real-time scoring, instant feedback, and dynamic question handling.
- **Enhanced UI responsiveness and application performance**, ensuring smooth user experience and faster rendering.
