Education

B.E. in Information Technology
Prof. Ram Meghe Institute of Technology & Research, Amravati (2014 – 2017)

Diploma in Information Technology
Priyadarshini Polytechnic College, MSBTE (2011 – 2014)

Skills

Frontend:

React.js, Next.js, JavaScript, TypeScript, HTML, CSS, Tailwind CSS

Backend:

Node.js, Express.js, Spring Boot

Database:

MongoDB, SQL

Tools:

Git, GitHub, Bitbucket, VS Code, Postman, Jenkins

Concepts:

RESTful APIs, State Management (Redux), Responsive Design, Agile/Scrum, CI/CD, Performance Optimization

Certifications

Certifications – AlmaBetter
Full Stack Web Development (MERN), AlmaBetter

Publications

Presentation

Recognized for improving code quality through refactoring and performance optimization

Appreciation

Received appreciation during the ECOM team meeting for code quality improvement through refactoring efforts.

Summary

Front-end Developer with 4+ years of experience in React.js, Next.js, JavaScript, and MERN stack development. Skilled in building scalable, high-performance web applications, integrating REST APIs, & developing reusable UI components.

Experience

AlmaBetter — **01/2025 - Present | Bangalore, India**
Web Development Trainee

- Engineered 3+ MERN stack applications with JWT authentication and role-based access control, improving application security and user management
- Designed reusable and scalable UI components using React.js and Tailwind CSS, reducing development time by ~30%
- Built a mental health support web app with real-time interactions and Gemini AI integration for a personalized user experience

Tags: React.js, JavaScript, Tailwind CSS, Material UI, Responsive Design, Web Accessibility, Vercel, Render, GitHub

Medline Industries — **07/2021 - 07/2024 | Pune, India**
Associate Frontend Developer | React.js, Next.js

- Engineered scalable React.js and Next.js healthcare applications, designing reusable component architectures that improved UI maintainability and development efficiency.
- Delivered responsive dashboards & workflow tools for Clinician and Patient Management platforms used by 15+ teams, enabling efficient handling of large datasets through advanced search and filtering features.
- Optimized application performance by reducing load time by ~25% through efficient REST API integration and data handling, while contributing to Agile development, code reviews, and developer mentoring.

Tags: Next.js, React.js, JavaScript, UI kit, Material UI, Bootstrap, Responsive Design, Web Accessibility, Bitbucket, Jenkins, CI/CD, SonarQube, Jira, Open API

BridgeLabz — **01/2021 - 06/2021 | Mumbai, India**
Fellowship Engineer

- Gained hands-on experience in Java (OOP), Shell Scripting, and logical programming by building applications such as Employee Wages and Mood Analyzer, along with backend APIs using Spring Boot.
- Developed and incorporated 8+ REST APIs across backend services, boosting performance by ~20% and improving data handling efficiency.

Tags: Spring Boot, React.js, JavaScript, Tailwind CSS, Material UI, Responsive Design, Web Accessibility, GitHub, Shell Scripting

Peak Web Guide — **02/2019 - 03/2020 | Nagpur, India**
Frontend Developer

- Spearheaded the merging of 10+ REST APIs into streamlined backend systems, decreasing server load by 15% and accelerating data processing speeds by 40% through efficient code optimization.
- Managed 6+ WordPress websites and crafted 10+ responsive HTML email templates, ensuring 100% cross-browser and cross-client compatibility.

Tags: JavaScript, HTML, CSS, Bootstrap, Responsive Design, WordPress Templates

Training Projects

Mental Health Tracker - (MERN Stack, Gemini AI) — **03/2026 - Present**
Mental Health Tracker

- Created a full-stack MERN application for mood tracking, journaling, and AI-based affirmations

Tags: React.js, Node.js, Express, MongoDB

Quiz Application - (React, Redux, Node.js) — **01/2026 - 02/2026**
Quiz Application

- Implemented a Redux-based interactive quiz platform with real-time scoring, instant feedback, and dynamic question handling.
- Enhanced UI responsiveness and application performance, ensuring smooth user experience and faster rendering.
